ABOUT US

The Education Tree is India's biggest Youth Community operating across a network of different schools and colleges. The sapling of TET was sown to break the stereotypes associated with education by broadening its horizons. Ideally, education should transcend the boundaries of academics to truly and holistically develop an individual. It should also nurture awareness and social responsiveness while cogently countering the forces of the diverse social-cultural backgrounds, existing in our society. The community aims to achieve this wholesome, inclusive vision.

WHAT PEOPLE SAY ABOUT US

The Education Tree helped me realise my true potential. This seemingly insignificant choice that I made turned out to be a pivotal point in my life in changing the way I perceived myself and hence the way I looked at the world.

Vani Madan

My experience at TET is full of adventurous moments and feats. This is one place that has imparted me skills and capabilities to strive towards my future endeavours

Divyansha Sohni

Being a part of this organisation made my college life super fun and full of new experiences & exposure. It gave me a cozy space to grow as an individual and I will be forever grateful for that.

Urvashi Batra

From various internships to handling brands, from working alongside co-mates to working on a team, from applying for my own self to reaching out to others to join the organisation! It was really a one of kind opportunity in itself.
